DETAILED ACTION

Response to Amendment/Arguments

1. This Office Action is in response to the RCE filed on June 10th, 2008. Claims 12-24 are now canceled. Claims 1-11 are now pending in the application.

Response to Arguments

2. Applicant's arguments, see REMARKS, pages 5-6, filed on April 29, 2008, with respect to the 35 U.S.C. 102 and 103 rejections of claims 1-11, have been fully considered and are persuasive in light of applicant's argument/amendment. The previous final Office action has been withdrawn.

Allowable Subject Matter

3. Claims 1-11 are allowed. The following is an examiner's statement of reasons for allowance:

Many references in the art disclose the wireless device for deploying in physical plant. Most of those references are comprising a wireless DSLAM with control management system to allocate/control resource, such as that found in Lemieux, Yves [U.S. 6,452,942], Voit et al. [U.S. 2002/0044567], Pience, Roger D. [U.S. 2002/0073434]. But no prior art reference discloses a network device that has a wireless control port to allow the technician to wirelessly access the

device and to perform diagnostic operations on the device in determining operational status of the device that had been deployed in the field.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
